| linkedin.com/in/ryanlewan

Software engineering student with a 4.0 GPA who builds and ships complete products end-to-end, from data models and backend systems to polished user interfaces.

EDUCATION

Southern New Hampshire University — B.S. Software Engineering Expected May 2028
GPA: 4.0 / 4.0

TECHNICAL SKILLS

Languages	Java, Python, C++, JavaScript / TypeScript, Swift, SQL, HTML & CSS
Frameworks & Tools	React / React Native, Next.js, SwiftUI, Node.js, Supabase (PostgreSQL), Git, Docker, Vercel
Core Concepts	Data Structures & Algorithms, Object-Oriented Programming, REST APIs, Relational Database Design, Modular Architecture

PROJECTS

HalfLight — AI Dream Analysis and Sharing App iOS & Web
Swift / SwiftUI, Next.js, TypeScript, Supabase (PostgreSQL)

- Sole developer of a cross-platform dream journaling app for iOS and web, owning PostgreSQL data modeling, application architecture, and UI implementation end to end.
- Implemented semantic search over journal entries with on-device embeddings from Apple's NaturalLanguage framework, keeping natural-language retrieval private and offline-capable.
- Designed a personalized feed-ranking algorithm combining interest matching, freshness decay, and Bayesian smoothing to keep recommendations stable for low-data, cold-start entries.

DivergeOS — Browser-Based Operating System Simulator
React, TypeScript, Zustand, Vite

- Built a browser-based desktop environment with a custom window manager supporting draggable, resizable, layered application windows.
- Architected centralized state with Zustand to coordinate application processes, window focus, and a simulated file system across the UI.

Inner City — Gamified Habit Tracker

- Developed a habit-tracking application that converts daily consistency into game-style progression to reinforce long-term behavior change.

EXPERIENCE

NORD Gear Corporation — Data Entry / Customer Service June 2026 – Present
Waunakee, WI

- Enter and verify customer orders in a high-volume manufacturing environment, holding accuracy across pricing, part numbers, account data, and shipping details.
- Coordinate with customers and internal teams to resolve order status, lead-time, and shipping issues, keeping orders moving accurately and on schedule.

BeMobile (Verizon Premium Retailer) — Sales Partner February 2024 – May 2026
La Crosse, WI

- Selected for a leadership development program after ranking in the top 20% of sales consultants for six consecutive months.
- Managed the full consultative sales cycle for wireless devices and service plans while consistently meeting monthly performance targets.
- Resolved account, billing, device setup, and technical issues for customers in a high-traffic retail environment.
